

HSB

**ICA GLOBAL CONFERENCE
KUALA LUMPUR, MALAYSIA
NOVEMBER 2017**

**Mr Anders Lago, President
HSB Riksförbund
anders.lago@hsb.se**

HSB – där möjligheterna bor

SWEDEN'S NEW CLIMATE AND ENERGY OBJECTIVES

2030

50% reduction
energy use and
non-fossil carfleet

2040

100% renewable
electricity
production

2045

greenhouse gas
emissions net-
zero

SMART AND SUSTAINABLE CITIES

- Governmental collaboration platform for Smart cities
 - Open and share data
 - Digitized planning process
 - Sharing economics and green business models
 - Utilization of existing buildings
 - Information model for municipalities

- Governmental platform for Sustainable cities
 - Knowledge dissemination
 - Coordination
 - Experience exchange
 - Knowledge development
 - Collaboration

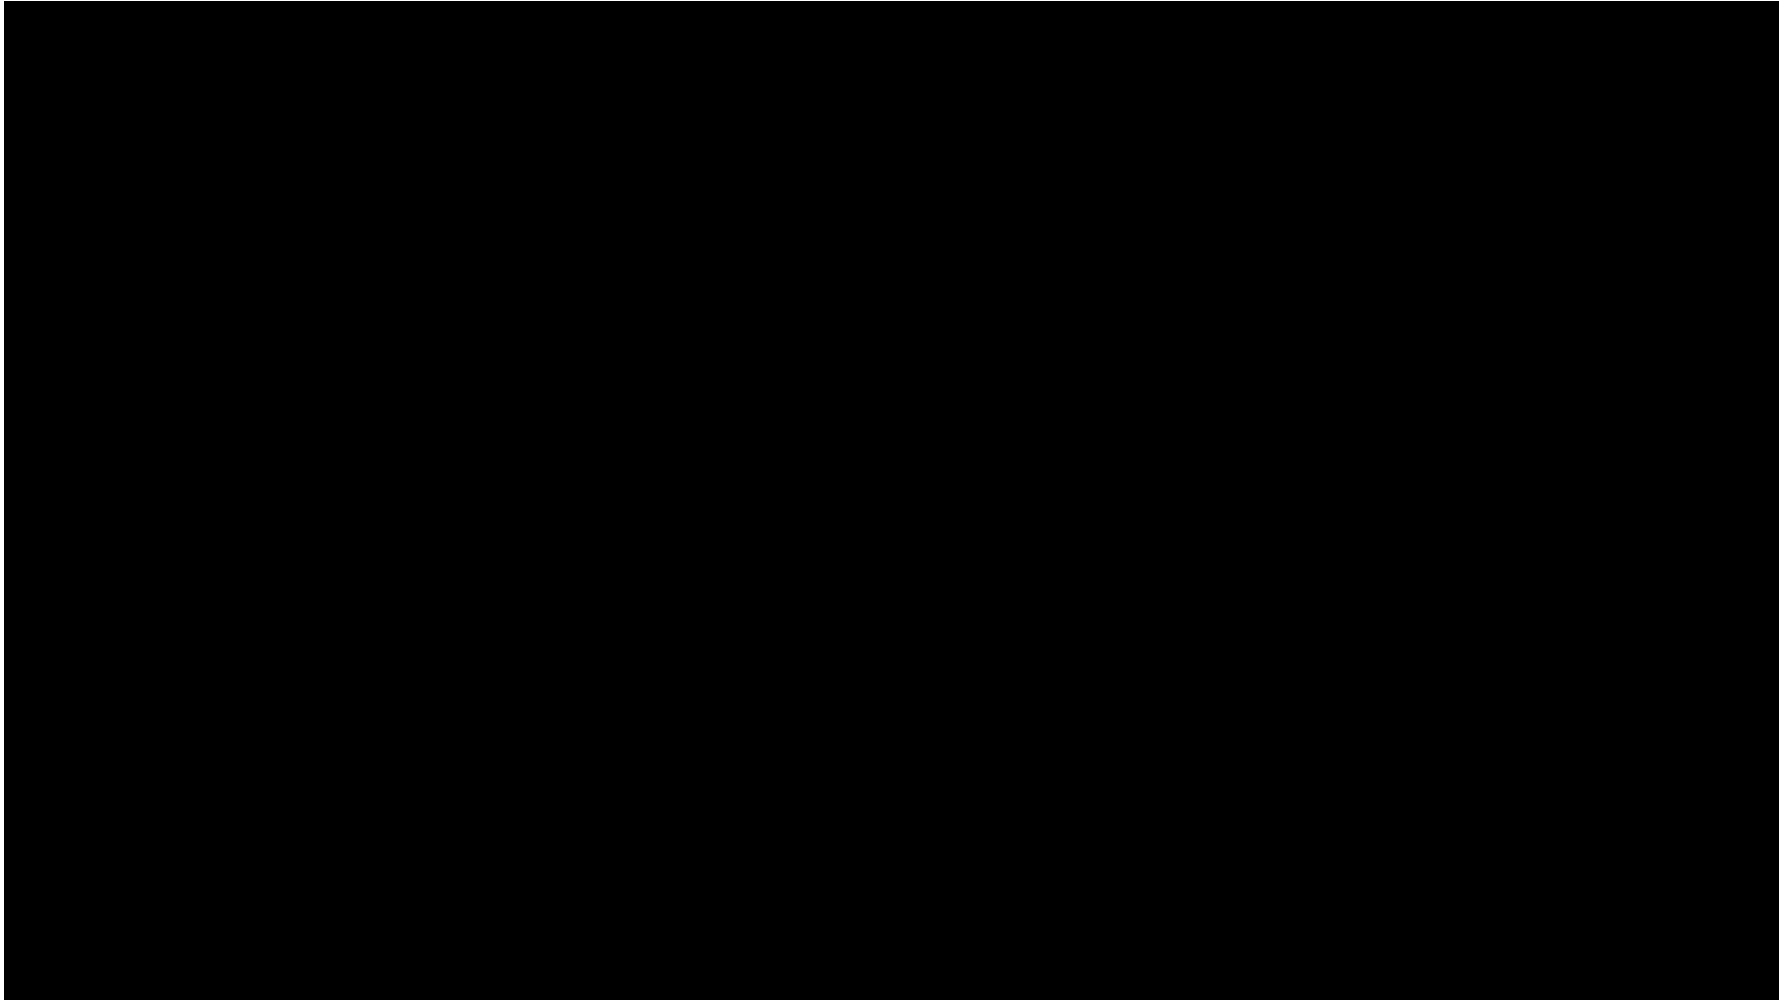

SUSTAINABILITY IN THE HOUSING SECTOR IN SWEDEN

- Sweden Green Building Council
- Housing actors are picking up pace in their efforts – competition to be the most sustainable
- Growing demands from municipalities on sustainability in construction

SUSTAINABILITY AT HSB

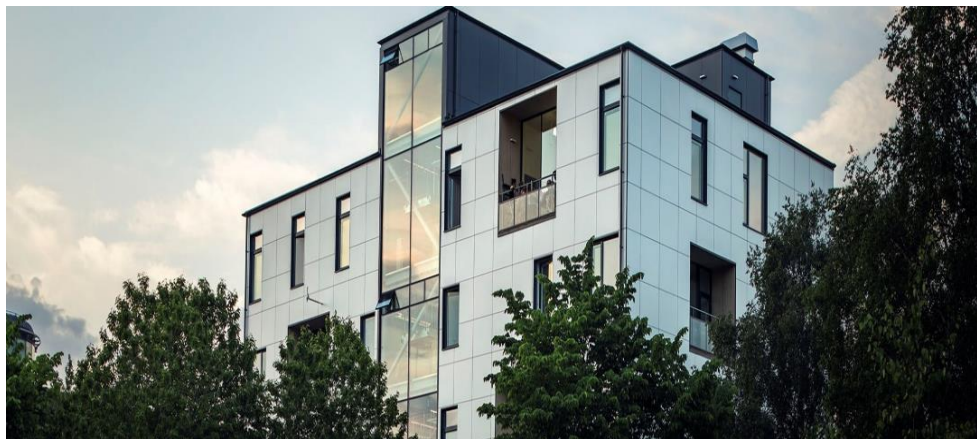

PRIORITIZED FOCUS AREAS FOR SUSTAINABILITY AT HSB

ONGOING RESEARCH IN HSB LIVING LAB

- Energy: BIPV, Building-integrated photovoltaics
- Sharing economy: HLL is built to share surfaces, built in clusters and you live in cubic instead of square meters

HSB - där möjligheterna bor

THANK YOU!
